

Your standards. Our eyes on the ground.

We tailor inspections to your requirements and schedule. Choose the support you need below; additional checks can be arranged along the way. We will agree on the scope and price with you upfront.

SERVICES TO SUIT YOUR ORDER	GUIDE RATE / USD
Incoming goods Before production: check materials and bought-in parts against your agreed specifications, so issues can be addressed early.	250 per inspector-day
In-process inspection During assembly: check first-off units, workmanship and agreed process checks while the line is running.	250 per inspector-day
During-production inspection Once production is underway: review finished goods and recurring defects while there is still time to make corrections.	250 per inspector-day
Pre-shipment inspection Before dispatch: sample finished goods against your checklist, including appearance, function, quantity and packaging as agreed.	250 per inspector-day
100% full-order inspection Check every unit in the agreed quantity for specified issues. Useful for defect sorting; the time required depends on the order.	250 per inspector-day
Factory assessment Before an order or when concerns arise: review production capability, working practices and quality controls against an agreed scope.	250 per inspector-day

Provisional guide prices, not a confirmed quote. One inspector-day means one inspector for one working day. Rates are editable planning placeholders; the number of days, travel, applicable taxes and any specialist requirements will be confirmed before booking. Full-order and repeat checks may require several inspector-days.

Clear reporting. Agreed checks, photographed findings and a signed report help you decide what happens next. Tell us which services interest you on the next page.

Tell us what you need.

Tick your interests, complete the fields and save a copy to return to your Queckmate contact. This is an enquiry, not a booking commitment.
